*The Mezzanine is cutting edge Contemporary European design. Built on a steel platform for stability and years of use with only the finest hardwoods for back and seat construction. With superior materials and thousands of seats in home theaters around the world you can be sure your Mezzanine series of seating from CinemaTech will provide years of comfort and performance.*

**About CinemaTech's Quality** - CinemaTech's NEW Act II incliners combines a luxurious comfort with affordable pricing. Utilizing many of the very same components as our world-class ACT I line of seating, CinemaTech's ACT II seating models incorporate a steel seating platform for stability and years of use in addition to only the finest hardwoods to provide a uniquely superior seating option for a very competitive pricing level. CinemaTech's ACT II seating models have a classic European design upholstered in the finest European leathers. It is constructed with hand-tied heavy steel springs to maximize support, while contoured arms create a tailored silhouette. Packed with Ultra High Density foam, its leather edges are rolled and trimmed for precise sewing. The result is a seating experience uniquely designed to blend comfort, luxury, and style as it elevates the pleasures of movie viewing at home.

**About CinemaTech's Leathers and Fabrics** - Only the most luxurious full grain leathers are included in the CinemaTech Collection. Purchasing tens of thousands of individual hides each year provides us with the kind of buying power that allows access to the finest leathers available worldwide. Like a quality diamond, each hand-selected hide has individual characteristics that make it unique and rare. CinemaTech also offers alternative fabric options for our entire line of seating with our Butterfly fabric. CinemaTech's Butterfly Fabric is a special micro fiber that is designed and engineered to resist staining for high quality upholstery and luxury cars. With more than 30 different colors available, CinemaTech's Butterfly Fabric combines perceptible softness with the silk-matt grip of a stylish fabric creation. At the same time CinemaTech's Butterfly fabric is unusually hard-wearing and dirt resistant, make it unique and rare.
